

SECURITY CAPITAL INDUSTRIAL TRUST

May 15, 1997

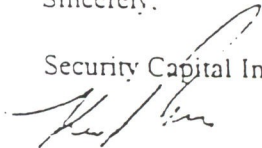

Mr. Jed Stever
Camden Construction, Inc.
1514 Antoine
Houston, Texas 77055

Dear Mr. Stever

I'm writing this letter to express my thanks on behalf of Security Capital for a job well done by Team Camden. The construction of Boise Cascade Office Product was a huge effort for a very important customer for both of us. This project had a critical time schedule right from the start. Camden Construction was able to have the warehouse area ready on the scheduled date to accept Boise Cascade's racking system and conveyor systems for erection. This was a very important step in the completion of this project. The finishes are of Class A office buildout specifications and were done in a very professional manner. Jed, Thank you and Team Camden for a job well done!

Sincerely,

Security Capital Industrial Trust

Keith Porter
