

March 31, 1997

Camden Construction Co.
1514 Antoine
Houston, Texas

To Whom it May Concern:

It is my pleasure to recommend Camden Construction Company as a first class company capable of performing quality work on time and within budget. During the first six weeks of 1997 Camden Construction contracted with Jetstream of Houston to renovate about 4,000 sq. ft. of occupied office space. This work consisted of flooring, painting, new ceiling, and minor repair work. During the entire project Camden Construction was prompt, cooperative, and always ready to solve any problems.

Jetstream would not hesitate in utilizing Camden Construction for future construction needs.

Scott Gerould

Manufacturing Manager
