Mr. Stever,

I just wanted to let you know that our company was very impressed with your organization. Everybody within your group was very professional and competent.

We were pleasantly surprised at how quickly you were able to complete the buildout of our offices. Not only was the job complete in record time but the quality of work was excellent. We will certainly recommend you to others and hope to work with you again if we expand or relocate.

Thanks Again,

  
Clay Whittington
