RE: SIMULATION SCIENCES OFFICE EXPANSION

Gentlemen:

I wanted to take this opportunity to extend my appreciation and thanks for the outstanding work that Camden Construction has demonstrated since the inception of our office expansion. Your attentive, responsive style was not only indicative in the both of you, but with all contractors who attended to our space.

Since I came into this project "late in the game" I was already up against a potentially difficult situation. Camden ensured a smooth transition right from the beginning making major construction decisions almost effortless. Your attention to detail and high level of efficiency not only made this project pleasant, but successful for Simulation Sciences.

I feel most fortunate to have had the occasion to work with Camden Construction and look forward to future office expansion projects.

Best regards,

Suzanne A. Allawi
Manager, Administration
